

Alessandra Parsons

AATQB

About Me

I created AKay Bookkeeping because I love taking a box full of invoices and receipts and producing an accurate set of accounts. I enjoy making life easier for clients by helping them understand their accounts so that they can successfully run and grow their businesses without worrying about their finances.

I specialise in creative businesses, in particular those within the yarn industry. I am passionate about crafts involving yarn and fibre and this gives me an excellent insight into the commercial world of yarn and current trends.

I have worked for Worcestershire County Council for the past 5 years, most recently within a data and performance team. I love spreadsheets, especially analyzing and translating complex data into language that is easy for my colleagues to understand.

I relish the challenge of spotting discrepancies in data and accounts.

Current Clients

My client list is confidential, however, I am able to say that I work with an online yarn business and an illustration product business.

My client, Jo Milmine, has waived confidentiality and provided a reference.

Education

AAT Accounting Level 4 Diploma 2012-2016

BSc Archaeology 2003-2006

How we work together

Every client is different and as such, I will offer a getting to know you call to work out the best way for us to work together. I like to use Zoom, an online video conference software, for 1:1 calls.

We will discuss how you are currently recording your finance transactions and which software you are using and then work out what will work best for us both going forwards.

As I work full time for the Council, I would only be available at evenings and weekends, but I regularly check email should you have any questions during the day. My turnaround for day to day questions is generally within 24 hours.

Current Rates

I am licensed to undertake bookkeeping for businesses, including recording your daily transactions and matching these to your bank statements, and completion of self assessment for sole traders.

I can produce reports to help you understand and keep track of how your business is doing. I also support you with help and advice.

As part of our initial discussion we would agree on a package that suits your needs and works for your budget. I base these packages on an hourly rate of £15.
